com/IceColdAppsWhat's New in Version 4.. 80- Added support for ebook AZW 3 format and html OPUS audio format- Fixed  
a lot of bugs- We rewrote the upload engine so uploads will be processed faster and with less errors!- Share with built-in web,  
FTP, WebDAV server- Upload to a WebDAV server- Upload to your Dropbox account- Upload to a FTP server- Upload using  
the HTTP POST method (for example to upload to your own server where a PHP script saves the file)ScreenshotsCustomer  
ReviewsI could not get the 1 free conversion!It's good for adding file conversion functionality to your iPhone or iPad or iPod if  
you really need it.

Store for iOS devices.. However, it doesn't work that well because of iOS device hardware limitations You'd be better off  
converting the file on your desktop or laptop much faster and with more options as to conversion specs, using better and faster  
commercial software, and then transferring the converted file to the iOS device.
